

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

REDUCED MONITORING WAIVER FOR TOWN OF WEST YELLOWSTONE

Our water system has been granted a reduced monitoring waiver for inorganic chemicals (phase 2-5) sampling. As our customers, you have a right to know why we are not sampling.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of that the drinking water has or has not met health standards. We will not conduct monitoring for barium, beryllium, cadmium, chromium,, mercury and selenium because we have been granted a reduced monitoring waiver by DEQ. This waiver is based on the analytical results for these chemicals.

For more information, please contact Robert Cromwell, PO Box 1570, West Yellowstone, MT 59758

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
